Sir:

The Office Action mailed on July 16, 2002 has been carefully considered. In response thereto, please enter the following amendments and consider the following remarks.

In the Claims:

Please amend claims 1, 13, and 17 as follows:

1. (Once Amended) A device installed in a monitor system for updating the function of a monitor of the monitor system, comprising:

USB signal lines for transmitting a recording command and recorded data;

a detecting device electrically coupled to the USB signal-lines for detecting and outputting the recording command and the recorded data;

a starting device electrically coupled to the detecting device for receiving the recording command and the recorded data and then transmitting the recording command and the recorded data when the starting device is switched from a visual path to a recording path;
